-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claim 2 have been considered but are moot in view of the new ground(s) of rejection.

Claim Objections

2. Claim 2 is objected to because of the following informalities: line 13: replace "ach" with - each- . Appropriate correction is required.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Ziaylek, Jr. et al., US Patent 4,848,714 (Ziaylek) in view of Highwood, US Patent 2,615,238.

Ziaylek discloses a support system for a bottle comprising a bottle retaining member (10) including a vertical backing member (12) with a lower horizontal holding member (20) coupled to the vertical backing member, the bottle retaining member also having two horizontal holding members (24), each with an opening (as viewed in Figure 1) coupled to the vertical backing member of the retaining member at a position above the lower horizontal member, the retaining member including two laterally spaced threaded bolts (27). However, Ziaylek discloses the

device being attached to a wall instead of a support base. Highwood teaches within the same field of endeavor the use of a support base having a lower plate (2) and a vertical support member (4) being coupled thereto for the attachment of a bottle retaining brace so as to provide a bottle support capable of use absent a wall to attach the support thereto. It would have been obvious to one having ordinary skill in the art at the time the invention was made to use the vertical support member as taught by Highwood with the bottle retaining brace as disclosed by Ziaylek for situations in which there is no wall space available for the attachment of the bottle retaining brace.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
